I am submitting a Work for review by the RCR Editorial Process as described in the editorial process on the RCR website at: <http://radiology.casereports.net/index.php/rcr/about/submissions#authorGuidelines> ("Author Guidelines"), and managed by the RCR Editorial Board and Advisors ("Editors").

If my Work is accepted for publication in RCR, I agree to participate in the RCR publication process, production, reproduction and distribution of RCR on the terms below:

I understand that RCR is an online scholarly journal that will be distributed as a scholarly journal including redistribution and licensing to third-parties. Works submitted to RCR may include original articles prepared for RCR, radiological images and materials, photographs, visual materials including charts and graphs, graphics and illustrations, and supplementary references to resources and publications.

I retain any copyrights I may have in the Work.

I grant to the University of Washington and RCR the first publication rights in the Work including publication in any format, in all forms and media in whole or in part, for all purposes, including for educational and commercial purposes, throughout the world and in perpetuity.

If the Work has multiple authors/contributors, I have obtained the permission and agreement of the other authors/contributors to the terms of this Agreement with the signatures of the other authors/contributors.

I acknowledge that the University of Washington owns the intellectual property in RCR and may, at its sole discretion, license RCR to third parties.

I acknowledge that RCR is an open access journal. By virtue of publication in RCR, I acknowledge that the Work and all other RCR articles accepted for publication in RCR, will be available to others to copy, distribute, and display, with proper attribution, for educational and other non-commercial purposes.

I agree to acknowledge initial publication in RCR in any reprint of the Work in any other venue and I shall not attempt to publish the Work as an original article or case report elsewhere in the scientific literature.

I agree that the Work contributed to the RCR, will be used at the discretion of the Editors and RCR's Advisory Board and is subject to the RCR Author Guidelines. I agree my submission may be copied, distributed, modified through editorial review, and modified for formatting, performed and displayed in all forms and media and for all purposes, including educational and commercial, throughout the world, in perpetuity, by RCR and its assignees.

I acknowledge that I will receive no compensation, now or in the future, for contributing the Work to the RCR. If my Work is accepted for publication in RCR, I agree to pay publication expenses of three hundred fifty (\$350) US Dollars for publication of my Work in RCR ("Fee") prior to publication.

I grant permission for the University of Washington to use my name in connection with RCR, only to identify me as contributor to or reviewer of the Work. I release UW including its officials, employees, representatives and agents, successors and assigns, from any claims that may arise regarding the use of the Work, including any claims of defamation, invasion of the right to privacy, rights of publicity or copyrights.

I have no obligations that prevent me from granting these permissions. I warrant all the Work is original and to the best of my knowledge, does not infringe on any third party rights or violate any privacy laws. If my Work includes non-original material, or the materials from other authors, or information for which a privacy release is required, I have obtained the necessary written releases and the releases are attached.

Acknowledged and Agreed:
